REDCON

CONSTRUCTION

ABOUT REDCON

BUILDING
LEGACY

REDCON Construction stands proudly as a prominent player in the EPC industry in Egypt.

With a diverse portfolio, REDCON spans across 8 companies contributing to various sectors including; construction, aluminum, GRC, glass façade solutions, steel production, ready-mix concrete and real estate development.

Steered by our core values, unwavering standards and a strong sense of social and cultural responsibility, we bring our accumulated expertise, knowledge, and practices to the forefront. Our impact is patent across a spectrum of industries, from residential developments to manufacturing, infrastructure, education, hospitality, commercial, industrial, healthcare, solar and renewable energy, as well as transportation networks and Data Centers.

At REDCON, we have nurtured a legacy of excellence, and we are committed to continually shaping a brighter and more sustainable future for Egypt and beyond.

REDCON

CONSTRUCTION

VISION & MISSION

BUILDING
LEGACY

VISION

We are determined to become the Green Builder of Choice while securing a spot among the ENR's top 250 construction companies worldwide.

MISSION

Our mission is driven by a clear and ambitious goal to achieve regional and international expansion. We actively pursue intricate and diverse business opportunities, guided by a strong emphasis on value engineering, synergy, and innovative design.

Fueled by our passion for excellence, innovation, and sustainable growth, we strive to redefine the future of construction.

REDCON
CONSTRUCTION

STANDARDS

BUILDING
LEGACY

QUALITY

An integral standard that REDCON can never compromise. We work hard to guarantee the best quality for all projects stages from contractual agreements to final construction touches.

SAFETY

Safety is one of our core competencies. A strictly adhered standard at REDCON with a top priority during every working day. From the finest detail in the well being of our team to on site equipment and construction work.

SUSTAINABILITY

REDCON's commitment to green buildings and sustainability is long standing. Reducing waste and energy consumption where possible and utilizing reusable resources & materials to fulfil the goal of improving lives of future generations as well as eco-friendly methods.

INNOVATION

At REDCON, technology is fully embedded in how we plan, build, and manage projects. We use an integrated ERP system to connect all business operations, from procurement and finance to execution, ensuring clear oversight and real time control. Our BIM workflows allow teams to coordinate across disciplines with accurate 3D models that reduce errors and improve efficiency. Through VDC, we simulate the full construction process before work begins on site, enabling better planning of time, cost, and logistics. Laser scanning technology supports this ecosystem by capturing precise built data, improving quality control and documentation at every stage.

REDCON
CONSTRUCTION

BOARD OF
DIRECTORS

BUILDING
LEGACY

Chairman

Eng. Tarek ElGamal

With over 40 years of experience in construction development, as a Civil Engineering graduate, he brings a strong educational foundation to his leadership. El Gamal is a certified consultant in "Total Quality Management (TQM)" and has completed programs in Leadership Excellence as well as the Latest Technological Developments in the field of Construction & Energy Efficiency.

He is committed to staying at the forefront of the industry. As one of the visionary leaders in the Egyptian business landscape, El Gamal serves a board member on some governmental agencies. He is a former founding board member of the Administrative Capital for Urban Development.

Furthermore, he actively contributes as a board member to the Ministry of Transportation, the largest Transit-Oriented Development (TOD) developer in Egypt. Eng. El Gamal's influence extends beyond national borders. He holds positions as a board member in eight international chambers and councils, where he contributes his insights and expertise to the global business community. His dedication to innovation and leadership has solidified his reputation as a prominent figure in the construction and development industry.

Vice Chairman & CEO

Mr. Amal Abdelwahed

With a distinguished career spanning over 40 years in finance and management, Mr. Amal Abdelwahed is a seasoned expert in revenue enhancement, cost control, financial analysis, and investment evaluation.

Throughout his career, Mr. Amal has been guided by unwavering commitment and strong business ethics. As a board member and co-founder of more than 10 companies across various sectors, he has consistently upheld these values. His exceptional acumen and dedication have contributed significantly to the success of these enterprises.

At REDCON Construction, Mr. Amal plays a pivotal role as CEO. He has been crucial in shaping the company's growth strategy and leading internal restructuring efforts. With a keen focus on profitability and precision, he is responsible for planning and implementing strategies that drive the company's success.

Mr. Amal Abdelwahed's leadership and expertise have been instrumental in shaping REDCON Construction's trajectory. His dedication to integrity and excellence continues to drive the company's pursuit of success.

Vice Chairman

Mr. Ahmed Abdallah

It is with profound sadness that we acknowledge the passing of our esteemed Vice Chairman, Ahmed Abdallah, in December 2024. He left an indelible mark on REDCON and on all who had the privilege of working alongside him. Mr. Abdallah was not just a leader, but an inspiration to many. He championed initiatives that transformed our company, always prioritizing collective growth and well-being.

As we navigate this difficult time, let us honor his legacy by continuing to strive for excellence and support one another, as he would have wanted. We are grateful for the profound impact he made on our lives and the lasting legacy he left behind.

Omar El Gamal

Executive Board

Eng. Omar Tarek El Gamal has built an impressive career in the industry, grounded in his solid educational background in Mechanical Engineering from the University of Houston. His professional journey began at Schlumberger, where he worked as a Field Engineer, gaining valuable global experience. His expertise further expanded during his time as a Manufacturing Engineer at Schlumberger's facility in Houston, TX.

In 2020, Eng. Omar transitioned to REDCON Construction as a Projects Coordinator. He quickly rose through the ranks, serving as Supply Chain Director and then Commercial Director. By February 2025, he became an Executive Board Member. His multidimensional expertise and strategic leadership have positioned him as a key player in shaping the future of construction.

Mr. Ahmed Pasha

Board Member

Mr. Ahmed Pasha - CEO, AL-PASHA Company. He has graduated from Ain Shams University with a degree in Electrical Engineering. He founded AL-PASHA Company in 1990, leading it to execute diverse projects ranging from hospitals, hotels to universities and power plants. AL-Pasha's expertise expanded, with his company becoming a leading distributor of home air conditioning units, representing prestigious brands such as Carrier, and an agent for Midea and Clivet air conditioners.

He serves as a non-executive partner in other companies such as Wadi El-Nil Engineering, Globe Contracting, and Admirco. Ahmed Pasha is an example of continuous growth and fruitful cooperation, which has made him a prominent figure in the Engineering sector.

Mr. Ahmed Abou-Hendeya

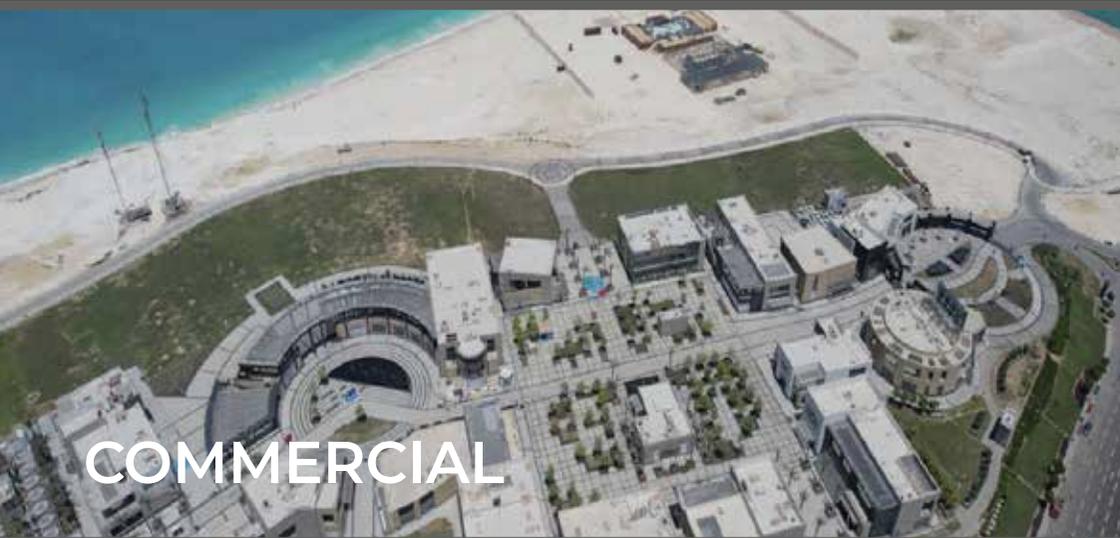

Board Member

Serves as a legal consultant for several well-known local and international companies, and acts as a personal legal consultant to several distinguished figures. Mr. Abou-Hendeya is a member of the Egyptian Bar Association, the Union of Arab Advocates, the International Bar Association, the Cairo Regional Centre for International Commercial Arbitration, the London Court of International Arbitration, the American Chamber of Commerce in Egypt, the British Egyptian Business Association, among many more. He is also the Vice Chairman of First Arabian Development and Investment Company, and Chairman of Al Ahly for Development & Investment Company, in addition to being a board member of several organizations alongside his role at REDCON Construction, including Elsewedy Electric, the Housing and Development Bank, Arabian Cement, Egyptian Resorts, and Cairo 3A International for Investment Company. Mr. Abou-Hendeya has graduated from the Faculty of Law at Ain Shams University in Cairo, Egypt, in 1987.
